Samurai and Ninja existed in the feudal times of Japan until 1868. But now, for the first time in the world, you can experience seeing both of them under one roof.

The tours are private for a small group or a family, limited to 7 guests. Except for the private banquet, no limit, Okada did 450 large incentive parties and 2,900 Samurai shows with a real sword.

His services are the culmination of the past 62 years of effort and incomparable quality.
